WHAT I CAN DO TODAY I can read primary sources about The Journey That Began in Illinois, weigh who made each one and why, and use evidence to answer historical questions.

THE SOURCES

OBJECT 1 · DOCUMENT

A code wheel and a practice line — "I am at the head of the Missouri." Proof that some of what the Corps might find was considered important enough to hide from other nations and empires

Jefferson's cipher for the expedition's secret messages, 1803.

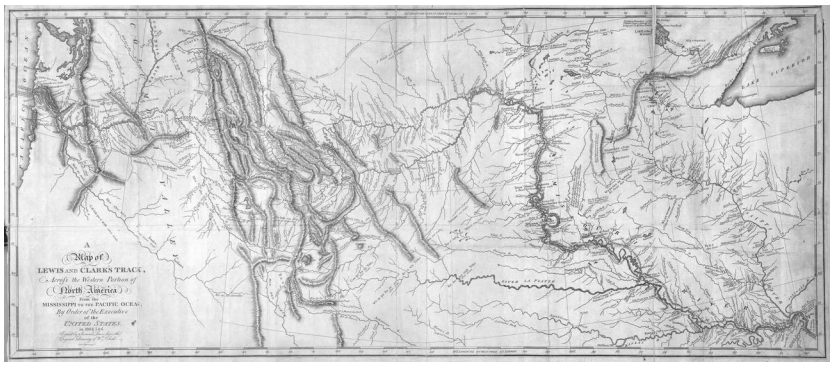

OBJECT 2 · ARTIFACT

Jefferson's face on the front; clasped hands and "Peace and Friendship" on the back. Handed to Native leaders as a token of friendship — and of a new authority claiming their land

A Jefferson Indian Peace Medal, 1801.

OBJECT 3 · MAP

Clark's great map, drawn from the journey — the West set down accurately for the first time, and the expedition's single biggest scientific payoff

"A Map of Lewis and Clark's Track…," 1814.

OBJECT 4 · A NATIVE RECORD

> *A calendar painted on hide, one picture for each year — the way a Plains nation kept its own history. The same decades the journals cover, recorded by the other side*

A Lakota winter count.
